# Highlights of COP 28

COP 28 marked the beginning of the end of the fossil fuel era

Official confirmation that 2023 was the hottest year on record, emphasizing the urgency of climate action

COP 28 concluded the first assessment of progress made by each state towards reducing emissions

Key takeaways from the 2023 edition of the Emissions Gap Report were highlighted

The mission to Limit Fossil Fuel Emissions was a central theme at COP 28

The active participation of youth at COP 28 underscored the importance of engaging the younger generation in climate initiatives

# Youth Experience at COP 28

---

Youth delegates from Odisha actively participated in negotiations, gaining valuable insights into the complexities of international climate agreements.

Engaging with global stakeholders provided a platform for youth to network and collaborate on impactful climate initiatives.

The experience at COP 28 served as a profound learning opportunity for the youth, broadening their understanding of global climate action.

Engaging in discussions at the pavilions enriched the youth's understanding of diverse perspectives on climate change and sustainability.

Exposure to innovative solutions and best practices inspired the youth to contribute to sustainable development in their local communities.

# Recommendations from Youth

---

Highlighting the Odisha Conference of Youth (OCOY) as a flagship initiative, officially accredited by the department

Emphasizing collaborative initiatives with local communities on designated environmental awareness days

Requesting crucial support to facilitate the participation of indigenous, tribal, rural, and disabled youth in the upcoming COP 29

Proposing the submission of a comprehensive set of recommendations for the upcoming climate budget

Vision 5 T; Youth Climate Action Commission in Odisha

Thank you
